

RAYMOND

STORAGE CONCEPTS

Engineered & Automated Warehouse Solutions

Maximize Density for Minimal Cost

Optimize your storage area and increase throughput with solutions from Raymond Storage Concepts (RSCI). Designed in strict compliance with current RMI guidelines, meeting or exceeding the highest industry standards. We offer quick ship stock programs to address those projects that just can't wait.

RSCI provides systems solutions for any size project. After working with you to understand your specific needs, we evaluate potential solutions to determine which best meets your operational and functional requirements.

Conveyor & Sortation - Transport cases, cartons, totes or full pallets quickly and efficiently. We align with industry leading conveyor manufacturers to provide turnkey solutions that meet the unique demands of your operation. From needs analysis through layout, design, mechanical installation, controls and field wiring.

Radioshuttle System

The Radioshuttle pallet shuttle system provides high density storage flexibility and customized designs for effective pallet handling. Battery-powered and remote-operated, Radioshuttle allows operators to work elsewhere while it is busy transporting pallets.

Modular Offices

Can be installed and in use in a matter of days without the disruption of conventional construction. Durable, functional and flexible. Modular offices can be expanded, rearranged or relocated. Eliminate an architect and utilize pre-cut, pre-engineered components. As "equipment" they provide tax benefits and qualify for accelerated depreciation.
